

This statement of quality policy ensures execution of the services and products with the following commitments:

ZHI is committed towards meeting and exceeding customer satisfaction by delivering ZHI products in line with our contractual obligations including the legal requirements without compromising quality and safety. This commitment is shared by all employees. The main objective of the quality policy of ZHI is to maintain delivery of ZHI products at a sustainable price with the shortest delivery time meeting Client's specified quality requirements.

ZHI strongly believes that ZHI employees are the key assets of ZHI and will strive to make continual improvements through the involvement of the people, teamwork and imparting the required training.

ZHI competitiveness will be improved by the addition and upgrade of existing resources and infrastructures, skills of ZHI people as well as nurturing better relation with ZHI suppliers, sub-suppliers and subcontractors. The quality policy is reviewed at least once in a year to ensure adequacy and suitability to ZHI business environment.

ZHI Quality Management System is maintained by frequent internal reviews, based on customer feedback and conducting management reviews while maintaining the certifications of ASME "U", "U2", "A", "PP", "S", "NB", & "R" CODE stamps in addition to ISO 9001:2015.

Ibrahim Saleh Al Zamil
